Rotary Moment

Rotary’s Wheel Emblem

The first design was made by a Rotarian in Chicago and was said to illustrate “Civilization & Movement”.

In 1922, it was decided that all Rotary Clubs should adopt a single design as the exclusive emblem of Rotarians.

In 1923, the present gear wheel, with 24 cogs and six spokes, was adopted by the “Rotary International Association”.

However, a group of Rotarian engineers advised that the geared wheel was mechanically unsound. It would not work without a “keyway” (the notch in the center of the gear to attach it to a power shaft).

In 1923 the keyway was added.
